myQ & Canon

The Combined POWER of Canon and MyQ

MyQ has just released its new Embedded application for Canon devices, delivering users increased efficiency, flexibility and security.

5 reasons why you need to start using MyQ today!

1. **MyQ IS EASY TO INSTALL AND CONFIGURE**
- Remote installation
- Automated printer discovery
- Scheduled user import

2. **SYSTEM MANAGEMENT**
- Admin dashboard
- Device monitoring
- Personalized Embedded Terminal

3. **ACCOUNTING AND REPORTING**
- Reporting and cost management
- Setting user policies

4. **FLEXIBILITY WITH MOBILE PRINT**
- Mobile Authentication for Pull Print
- Job management with MyQ Mobile App
- BYOD Printing

5. **AVAILABILITY AND RESILIENCY**
- Client spooling
- Failover print

Starting with MyQ X 8.2 (LTS), MyQ's web UI for users and system administrators complies with **WCAG 2.1 standards of web accessibility,** level AA, as certified by BITV.

Personalization	Web UI WCAG 2.1 level AA	✔
	MyQ UI & themes (colors, icons)	✔
	MyQ X Easy functions (scan, copy, fax)	
	ID card copy function	

Secure Login

MyQ allows users to log in to devices using various methods and two-factor authentication. Login methods include ID card login, entering a PIN code, and even reading a QR code using the MyQ mobile app. Once logged in, users can release or reprint jobs **without touching the printer.**

My Jobs

Users can use various printing options on the device panel or in the **MyQ X Mobile Client**. They can select a specific job from the job list, change the number of copies, decide between color/mono and duplex/simplex, mark jobs as a favorite, or select jobs they wish to reprint from history.

Device Scan-to-Me Function

Improvement upon the Canon device's native scanning function, which is automatically paired with the user's e-mail and home folder defined at the MyQ server.
